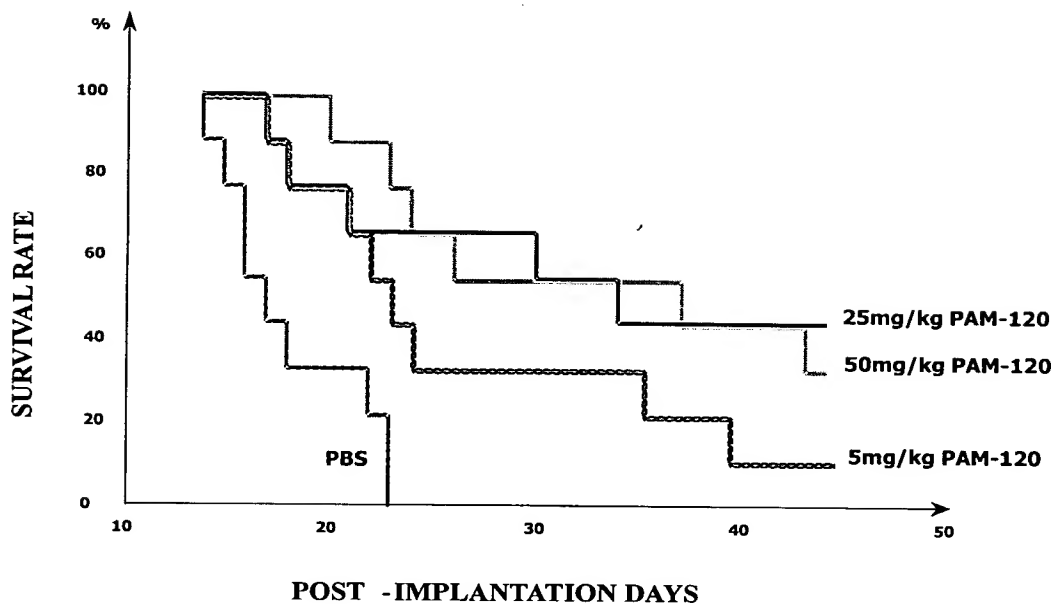

FIG 5

Figure 1 is a bar chart showing the tumor size (mm³) for three treatment groups: PBS, PAM 120, and Rh2. The y-axis represents tumor size in mm³, ranging from 0 to 10000. The x-axis represents the treatment groups. For each group, two bars are shown: 'Before treatment' (stippled) and 'After treatment' (white). The tumor size is significantly reduced after treatment in all groups, with the Rh2 group showing the most pronounced reduction.

Treatment	Before treatment (mm³)	After treatment (mm³)
PBS	~9000	~7000
PAM 120	~9000	~1000
Rh2	~9000	~1000
